Application/Control Number: 09/712,305

Art Unit: 3764

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Claims1-47 and 49-60 are, drawn to apparatus, classified in class 482, I. subclass 70.

11. Claim 48 is, drawn to apparatus, classified in class 482, subclass 14.

The inventions are distinct, each from the other because:

Inventions Group 1 and Group 2 are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed may be practiced by using another device such as the device of Maresh.

After careful consideration of the claims the examiner has determined a restriction is proper and should have been required prior to examination.

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number 308-2668.

Donnelly/DL
